PUL

Sage Pulse — High Output AC/Emergency Compact Wall Pack

Dimensions & Mounting

All dimensions in inches, nominal

FRONT ELEVATION · SIDE PROFILE

Identification only — drawn per the published BB-model figure; the three callouts shown are the complete published dimensional record.

HOUSING DIMENSIONS

	Value
Height (front elevation)	10-1/2"
Width (front elevation)	6-9/16"
Depth (side profile)	3-5/8"
Mounting	wall mount over junction box via the mounting plate's molded universal mounting pattern · or surface conduit via the supplied 1/2" threaded top access

CONSTRUCTION

Die-cast housing with durable powder-coated finishes in white, black, nickel and dark bronze; sealed and gasketed — IP65 rated for ingress protection, cULus listed for wet locations. Decorative oval wall-pack form: photocell grille set into the housing top, lens section spanning the lower front for wide forward and side distribution; oval mounting plate with molded universal mounting pattern.

NOTES

- All dimensions are nominal, in inches; per the published dimensioned drawing (BB model).
- Dimensions shown are the complete published set — no mounting-plate, knockout, or conduit-entry dimensions are separately published; the mounting plate's molded universal mounting pattern provides simple mounting over a junction box (see installation).
- The published drawing is captioned for the BB model.

"Engineered for the spaces it protects."
